EDUCATION

Bachelor of Science in Information Technology

January 2018 - May 2019

Florida State University, Tallahassee, FL

TECHNICAL STRENGTHS

Languages

JavaScript, HTML5, CSS3, EJS, C++, Python, MongoDB, MySQL

Frameworks/libraries

Node.js, Express.js, JQuery, Bootstrap 4

DEVELOPER PROJECTS

CONCRETE - Skatepark Review Web App

A responsive web application built with RESTful routing, NodeJS, ExpressJS, MongoDB, PassportJS Authentication, and Bootstrap 4. Concrete unites skateboarders from around the globe to view skateparks all over the world.

WORK EXPERIENCE

Azure VM Developer Intern

December 2018 - May 2019

Florida State University College of Medicine, Tallahassee, FL

- Developed Microsoft Azure cloud virtual machines by writing JSON API templates and built the templates with Packer.io in PowerShell
- Created network topology diagrams using Microsoft Visio to expedite network troubleshooting, which created a more efficient work flow for the System Admins

IT Assistant

June 2018 - August 2018

Florida State University iSchool, Tallahassee, FL

- Provided 30 high school students exposure to careers in Information Technology, Computer Science, and Computer Engineering through a 6-week course
- Supervised 30 students daily, assisting with HTML5, CSS3, JavaScript, Python, Adobe Photoshop, Adobe Illustrator, InDesign, and GameMaker over the 6-week camp

LEADERSHIP

Member Educator Coordinator

May 2018 - May 2019

Codeducation, Florida State University

- Taught 4 HTML5, CSS3, JavaScript and Github sites workshops helping non-STEM majors learn how to code and build online portfolios
- Managed updates on meetings, workshops, and other club information for 291 members

President

May 2018 - May 2019

Transfers Helping Transfers, Florida State University

- Managed and mentored a club of 20 active members providing tips on what classes to take, where to study, and general campus knowledge
